Statewide bib standards committee
March 12 - Minutes - Highlights

Wicatalog.org - Grant website and repository
- Website feedback for LEANWI - additions, corrections…
  - Cataloger's with an apostrophe
  - Change History to Background, About us
  - Combine history and contact us pages
  - Cat with a mullet?
  - Check into all the searches on Coop Cat page and Bib Standards page

MarcEdit training - How did it go?
- Applicable to some of the work at IFLS
- Reg ex
- Fast
- Content remains available
- Listserv

Automated bib creation - Jim Novy consulting - Updates
- Continuing work with NWLS
- Possible project with Monarch and Bridges
  - Selecting good quality bib records from OCLC rather than quickly created local records
    $5000 for both Monarch and Bridges together
- SWLS Backstage work happening this spring

DPI Updates:
No further information from DPI about continued funding. Jackee emailed Ben with our proposed projects at the end of February. Email info:
- Continuing the work of the established Statewide Bibliographic standards group. Currently this group meets monthly with a smaller group meeting outside those times to begin the documentation creation process. We would like to establish Best Practices and Recommendations for Fiction and Nonfiction (Juvenile, Adult, and Youth Adult), Large Print, Audiobooks and Graphic novels. We will also create best practices/recommendations for Local subjects and genres and regular database maintenance. We'd also be interested in working on ways to incentivize the adoption of the recommendations.
- Continuing clean up projects for systems that need that support and potentially a statewide Series authority work cleanup project. An example for this might be taking 20

of the most popular Adult fiction series and analyzing each systems' public catalog to verify it's searchability.

- Enhancing efficiency with additional automated projects. For example, implementing BiblioCloud for the MORE Consortium to automatically integrate OverDrive records into the public catalog.
- Providing training and resources to catalogers. We are investigating subscriptions and training for the RDA Toolkit and are interested in offering continuing education opportunities to attend OLAC and CORE conferences. We see value in authority work training and improving that work across systems. We are also interested in learning from circulation/reference staff and finding ways to share the value of cataloging work with patron facing staff.

High level overview for potential costs:
Implementation of BiblioCloud - $10,000
Automation/clean up projects - $5,000
Cataloging and authority training - $10,000
Series clean up project – $5,000
Recommendation incentives - $10,000
Research/provide patron facing staff training - $5,000
Grant coordination, Statewide bib standards coordination - $5,000

Prioritize 2024-2025 ideas - Plan for grant application deadline April 30.

Next meeting: April 16 at 1:00pm

Bridges (Single)

Chat notes on MARCEDIT
Monarch:
I will need to return to notes and documentation, but I learned some things and know where to look to refresh my memory on other functionality that will likely be very useful.
SCLS:
I definitely learned some more tricks and I could have used more time to focus on regular expressions.
SWLS:
I haven't used regular expressions since I took the class a year ago, but I use the tasks and the add/delete functions all the time on records I'm loading from OCLC and on older records if I'm making the same change to a group of records (since we don't have the ability to edit records more than one at a time in VERSO)
